

ALL STEEL

Built to handle the most demanding tasks, the All Steel bed feature a heavy-duty subframe rated at 40,000 lbs for exceptional strength and reliability. Integrated work lights enhance visibility in low-light conditions, helping you stay productive and efficient no matter the time of day. Boost your hauling capabilities with a bumper pull hitch rated at 22,000 lbs, giving you the power and confidence to tow with ease.

SPECIFICATIONS

Truck CA Length	Rear Wheel	Length (in)	Width (in)	Turning Radius
60"	Dual Rear Wheel	119 1/2"	96"	65-1/2"
84"	Dual Rear Wheel	143"	93"	70"

STANDARD FEATURES

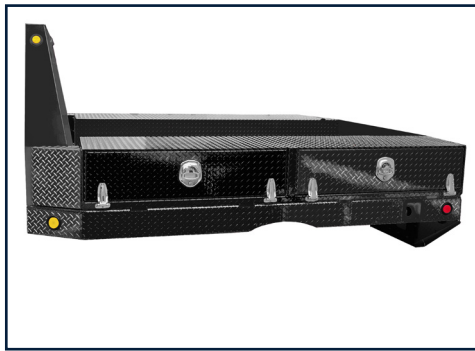

- ▶ **Heavy Duty Steel Subframe:** Rated at 40,000 lbs., the mounting system delivers unmatched performance through enhanced safety and optimal weight distribution.
- ▶ **Aerodynamic Headache Rack:** Robust 3/16" aluminum aerodynamic design minimizes wind resistance, reducing noise and boosting fuel efficiency.
- ▶ **3/16" Steel Tread Plate:** Built with a thicker tread plate for standout strength, durability, and performance.
- ▶ **Integrated Work Lights:** Reverse lights located in the headache rack transform into work lights controlled by an auxiliary switch.
- ▶ **2-1/2" Receiver:** Integrated into the steel subframe, offering a tow capacity of 22,000 lbs.
- ▶ **Internal Stake Pockets:** Allow easy side board installation, complemented by pre-cut holes that enable anchor bolts to secure boards, eliminate rattling, and enhance functionality.
- ▶ **Factory Back-Up Camera + Sensors:** Our truck beds integrate seamlessly with factory sensors and cameras, preserving full functionality while enhancing safety and convenience.
- ▶ **Mud Flaps + Anti-Sail Brackets:** Heavy-duty material shields bed from debris, with brackets securing mud flaps.
