

CAROLINA CUSTOM PRODUCTS

MADE IN USA

B-SA-112-96-34 Bed

ALL-STEEL

Steel is known for its brute strength and high payload capacity, it is made for your toughest jobs. Our all steel bed is made of 3/16" steel tread plate and is mounted on our heavy duty steel sub-frame, giving you a truck bed that exceeds industry standards.

Additionally our **All-Steel** Bed goes through a 7-stage powder coating process to reduce the risk of corrosion and keeps your bed looking new long into it's life.

Top Deck Toolboxes with Tailgate

Our toolboxes are engineered to give you the most storage possible.

8" Drop-In Sides with Tailgate

3/16" powder coated tread plate utilizes the beds pre-existing internal stake pockets & contoured tailgate to provide a clean finish.

6" Fold-Down Sides with Tailgate

3/16" powder coated fold down sides provide versatility & ease of access. Making loading & unloading a breeze.

Under Body Tool Boxes With Dri-Dek® Liner

Manufactured of aluminum treadplate & feature our no hassle installation making it easy to purchase at a later date.

Bolt-On Rub Rails

Bolt-on, powder coated rub rails made of 3" x 3/8" thick bar provides ample hookup points that secure loads simple & quick.

Rhino Lining

Rhino line protects against scratches, dents, & impacts while creating a non-slip friendly surface.
